Mayor's Message

I presented a balanced budget to the City Council in June which was approved. I am pleased to say that Marriott-Slaterville will continue its tradition of no property taxes. We anticipate a surplus for this current budget year which will be set aside for future capital projects.

Congratulations to our city staff on receiving a \$2.2 million grant to realign Pioneer Road at the Plain City border so that it no longer floods and is separated from the Warren Canal. The old bridge into Plain City will also be replaced. Construction will start late this year or next year.

You're invited to attend the Planning Commission and City Council meetings. If there is a public hearing, you are free to make comments on those issues. There are many projects, activities, and developments that are going on. We handle many different issues at the city from state mandates, to infrastructure, to services, to land use. Many people have little understanding how local government functions. There are many resources to learn about and become informed in the operation of local government.
