

# THE PIONEER POST

Marriott-Slaterville City Newsletter

April 2021

Volume XXI Issue 4

1570 West 400 North – Phone 801-627-1919 – [www.marriott-slaterville.org](http://www.marriott-slaterville.org)

## Spring Clean-up

Spring clean-up time is here. For your convenience, dumpsters will be placed at Marriott Park and Slaterville Park from April 24-25. Please put all debris inside the dumpster, not on the ground. This is a complimentary service. Please be considerate of others using the dumpster. No tires or hazardous material please. To dispose of junk cars, call the City Office at 801-627-1919.

## Know Your Community

As part of our “Know Your Community” education program in March residents had an opportunity to learn about recycling. Residents toured the Waste Management recycling facility that processes the recycling material of our community. At this facility, massive equipment handles 32 tons of recyclables each day using separator machines to sort plastics, cardboard, and metal. It was an educational experience for all involved.

As we continue the “Know Your Community” education program, these are services provided by local government:

- Public Safety      •Parks              •Events
- Sewer              •Irrigation          •Transportation
- Elections          •Land Use          •Human Services
- Emergency Prep   •Recycling          •Agriculture

## Irrigation and Secondary Water

April begins the irrigation season. Ditch companies are getting ready to turn down the water this month. Marriott-Slaterville City invites you to attend a workshop to learn about irrigation and secondary water on **Tuesday, April 20, 2021, at 11:00 AM**. The

workshop will be held at the City Building, 1570 West 400 North. Just show up to attend.

We will discuss the history of irrigation, and learn how early settlers in our area developed a vast network of irrigation canals, ditches, and facilities to water this desert where we live. Without our irrigation systems that have been developed over the last 175 years our communities would have never prospered.

Today, we take for granted these irrigation systems and the limited water resources in Utah. As the water season begins this year the Governor has already expressed drought concerns, so this workshop is one you will want to attend.

### PLANNING COMMISSION

**TUESDAY, APRIL 20, 2021 – 7:00 P.M.**
